

MOTHER'S DAY 2022

For this simple, but meaningful project, print a card on cardstock for each of your young women. You will also need supplies like colored pencils, markers, and pens.

Show the example and explain to the girls that they can choose words that describe their mom and create something special just for her. Encourage them to think about specific times they have felt blessed by their moms. They can choose words that help describe their mom in those circumstances. Moms would love hearing those memories when they receive this card! I've included a list to display to help get the young women started.

"To all mothers in every circumstance, I say, 'Be peaceful. Believe in God and yourself.

You are doing better than you think you are." - Jeffrey R. Holland
