Activities and Learning Ideas for Youth

Free Father's Day
Printable Greeting Card

Thank you for downloading this free printable for Father's Day! It features a quote from Dieter F. Uchtdorf: "In family relationships, love is really spelled t-i-m-e." (*"Of Things That Matter Most,"* October 2010 General Conference)
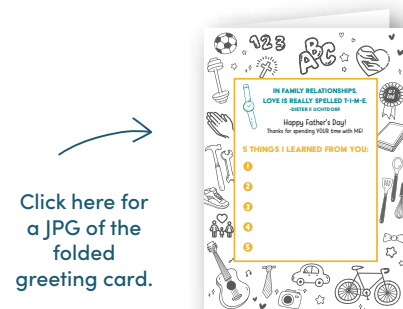

Then there is space for them to write 5 things they learned from their dad!

If they're having trouble thinking of ideas, remind them it can be anything from learning how to tie their shoes, ride a bike, or drive a car to learning how to pray, study the scriptures, repent, etc.
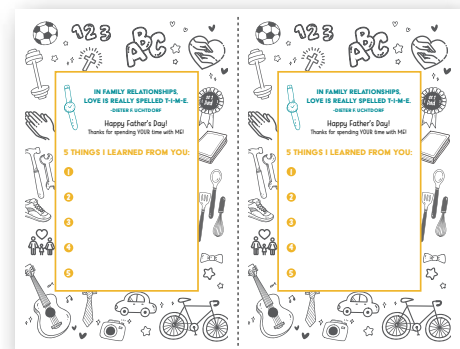

Choose a folded or flat card:

Print the 5x7" greeting card on thick paper or cardstock. Give your youth time to write a personal note to their dads or father figures in their lives.

Click here for a JPG of the folded greeting card.

Use the half page print option to print two flat cards to a page. Just print and cut down the middle of the page. I'd still suggest printing on cardstock, but it can be printed on regular paper, if needed. The youth can write a personalized note on the back.

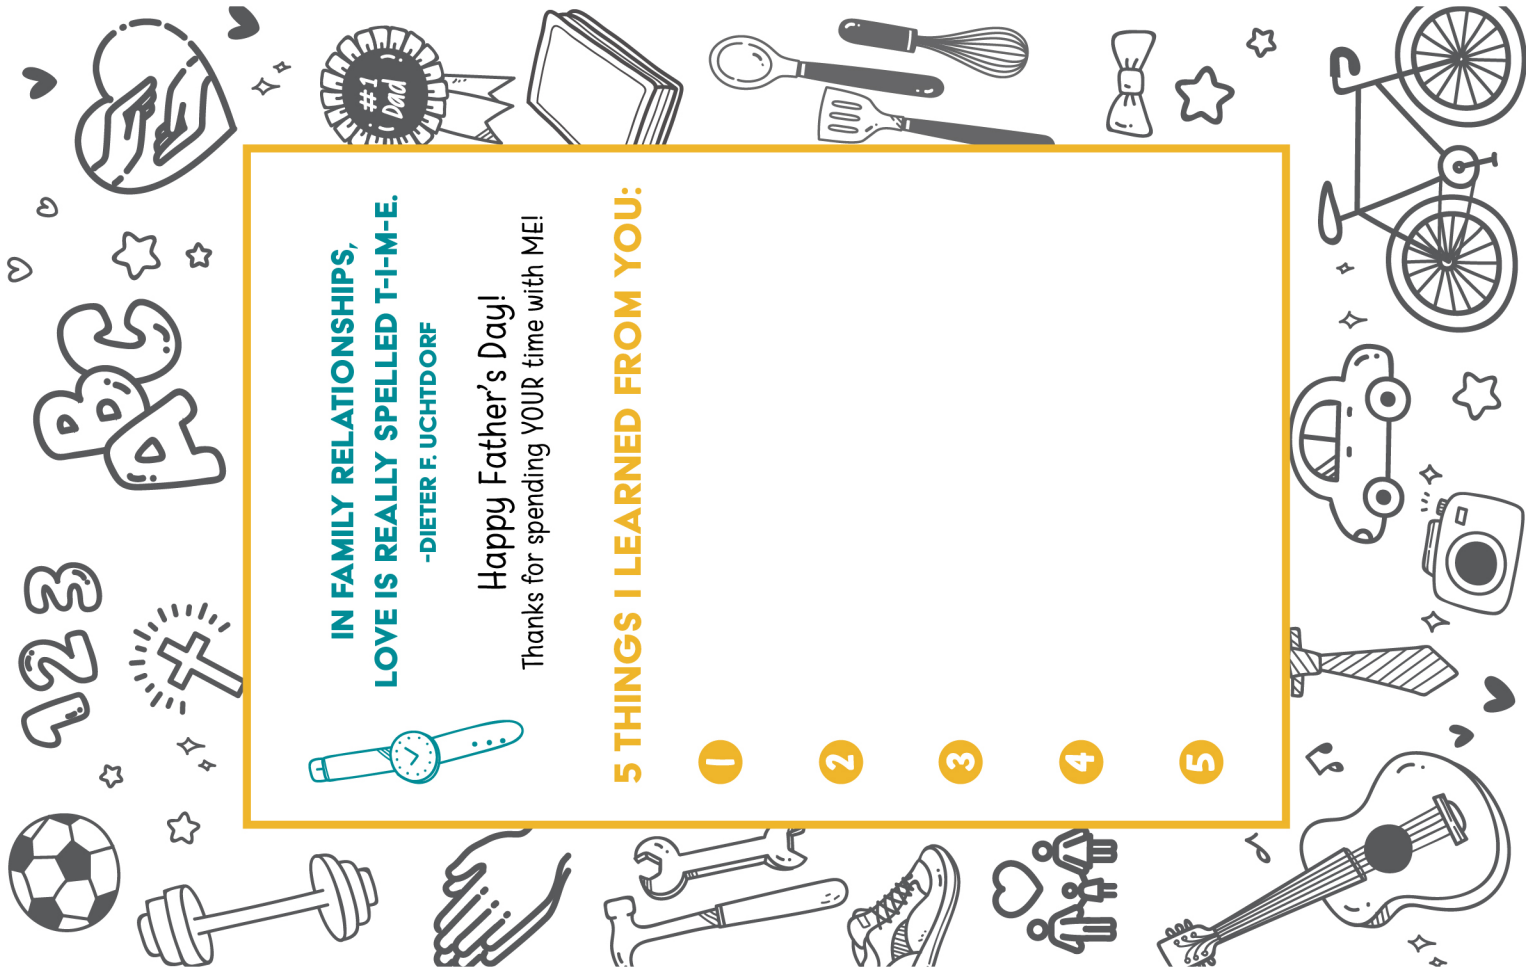

Click here for a JPG of two flat cards.

IN FAMILY RELATIONSHIPS, LOVE IS REALLY SPELLED T-I-M-E.
-DIETER F. UCHTDORF

Happy Father's Day!
Thanks for spending YOUR time with ME!
